IS PROHIBITED BY LAW.

# WEEKLY HEALTH REPORT

## CURRENT MORBIDITY IN THE CONTINENTAL UNITED STATES

The purpose of this report is to call attention to the most recent data of current significance in regard to health conditions and hospital facilities in Army posts in the continental United States.

### MORBIDITY DATA

In this report admission rates are shown for all causes (disease, injury and battle casualty) combined, for all diseases combined, for injuries and for a few specific diseases. These rates are presented on an annual basis to facilitate comparison with corresponding rates in annual and monthly reports. Such annual rates of admission indicate the number of admissions per 1000 mean strength which would occur over a year's time if the current week's experience continued through the year.

The report also shows the number of cases of the more common communicable and certain other diseases of special interest. Appended to the report is a list of cases of the rarer communicable and certain other diseases.

### HOSPITALIZATION DATA

The number of patients remaining in hospital at the end of the week per 1000 strength, as given in this report, furnishes an approximation of the current non-effective rate. Current hospitalization conditions are presented in terms of bed capacity and beds occupied.

### CURRENT TRENDS

AS INDICATED IN THE CHART ON PAGE 3 THE ADMISSION RATE FROM ALL CAUSES COMBINED DECREASED FOR THE SECOND CONSECUTIVE WEEK TO A LEVEL ABOUT 10% HIGHER THAN THAT PREVAILING DURING THE CORRESPONDING WEEK LAST YEAR. THE ADMISSION RATE FROM ALL DISEASES COMBINED ALSO DECLINED, TO A LEVEL ABOUT 13% HIGHER THAN DURING THE CORRESPONDING WEEK LAST YEAR. THE ADMISSION RATES FROM INJURIES AND FROM COLDS, INFLUENZA, ETC., WERE RUNNING SLIGHTLY BELOW LAST YEAR.

### EXPLANATORY MATTER

In reading the detail tables, it should be noted that any admission rate followed by a question mark (?) denotes a rate which has been computed on the basis of 5 or fewer cases. Such rates are unreliable as indications of trend. The symbol # has been placed after the name of stations (or groups of stations) where part or all of the data for the current week have not been received and the latest available figures have been substituted therefor. The symbol ! has been placed after figures (shown as reported), verification of which has been requested from the reporting unit.
